# Hydraulic Components

The Centric Parts brake hydraulic program is the most complete and up-to-date in the industry and includes Brake Master and Wheel Cylinders, Brake Hoses, Caliper And Wheel Cylinder Repair Kits And Remanufactured Power Boosters.

## Master Cylinders

Centric Parts Brake Master Cylinders match original equipment parts in quality, configuration and fitment. Cylinders are complete with reservoirs, switches, and floats and are offered with the original aluminum casting body design where applicable. Product is manufactured under the highest quality standards by OEM and OES manufacturers.

## Wheel Cylinders

Centric Parts Wheel Cylinders follow the same formula: OE replacement and quality, including brass inserts and aluminum castings where applicable

## Clutch Hydraulics

The Centric Parts line of clutch master and slave cylinders is the most complete in the automotive aftermarket. Each component is engineered to meet or exceed O.E. specifications.

## Brake Hoses

Centric Parts brake hoses have the widest application coverage in the aftermarket.

# Brake Pad and Shoe Hardware

Hardware replacement is essential for correct performance and reliability when replacing brake pads or shoes. Centric offers a full line of disc brake and shoe hardware kits designed to fit and work like Original Equipment.
